**TRAINING PROGRAM
IFEM Endo Abu Dhabi**

Surgical intervention for
advanced endometriosis

MASTERCLASS IFEM ENDO ACADEMY

Presentation of the Masterclass

PLACE

IFEM Endo
Burjeel
Hospital, Abu
Dhabi, EAU

DURATION

1 immersive
and
accredited
week

TEAM

Pr. Horace Roman
Dr. Thomas Dennis
Mme Marion Martin

IFEM Endo Masterclass is a distinctive immersive training program focused on the **surgical management** of deep endometriosis.

Organized in Abu Dhabi, at the core of the reference center led by **Professor Horace Roman and Dr. Benjamin Merlot**, this week provides a comprehensive experience in direct engagement with the IFEM Endo operating teams.

Designed **for seasoned gynecological surgeons**, this Masterclass presents a blended and progressive format that includes:

- **daily engagement** in the operating room,
- specialized **technical seminars**,
- **simulation and imaging** sessions,
- **interactive courses** and analysis of actual cases.

Each participant engages in a rotation of practical activities, theoretical instruction, and multidisciplinary workshops, thereby ensuring **an optimal balance between knowledge acquisition and practical application**.

The objective is to guide each surgeon in cultivating a **comprehensive operative vision**, mastering **intricate technical maneuvers**, and embracing the **IFEM Endo philosophy**: precision, collaboration, surgical excellence, and compassion.

At the conclusion of the week, following the successful completion of the final examination, participants receive **the IFEM Endo Labs Certificate of Excellence**, which acknowledges their technical proficiency and their assimilation into the IFEM Endo operational methodology.

MASTERCLASS IFEM ENDO ACADEMY
