Dr. Abhishek Mangeshikar is a **globally recognized specialist in advanced endometriosis surgery** and Founder of the Indian Centre for Endometriosis. He focuses on the **management of complex and deep infiltrating endometriosis** using multidisciplinary minimally invasive techniques. He is also actively involved in international training and education to advance surgical standards and **improve comprehensive patient care worldwide**.

***At the end of the course, you will receive a certificate of attendance.***

*You will have access to 20 procedures of complex cases of deep endometriosis during your fellowship week.*

***We offer to come from one week to six week fellowship.***

*The cost of this advanced training is €1 500 per week.*

*To confirm your booking, a **deposit of 50%** will be requested at the time of booking.*

We look forward to welcoming you to IFEM Endo Bordeaux and sharing with you an experience in the expert surgery of endometriosis.

# MASTERCLASS IFEM ENDO ACADEMY

## Presentation of the Masterclass

### PLACE

IFEM Endo,  
Mumbai, India

### DURATION

1 immersive  
and  
accredited  
week

### TEAM

Dr. Abhishek Mangeshikar  
Dr. Thomas Dennis  
Pr. Horace Roman

**IFEM Endo Masterclass** is a distinctive immersive training program focused on the **surgical management** of deep endometriosis.

Organized in Mumbai, a branch of the IFEMEndo Group founded by the renowned surgeons **Prof. Roman and Dr. Merlot**. The local academic team, led by **Prof. Roman, Dr. Merlot, and Dr. Mangeshikar**, offers you a comprehensive 360° experience in complex endometriosis surgery.

Designed **for seasoned gynecological surgeons**, this Masterclass presents a blended and progressive format that includes:

- **daily engagement** in the operating room,
- specialized **technical seminars**,
- **simulation and imaging** sessions,
- **interactive courses** and analysis of actual cases.

Each participant engages in a rotation of practical activities, theoretical instruction, and multidisciplinary workshops, thereby ensuring **an optimal balance between knowledge acquisition and practical application**.

The objective is to guide each surgeon in cultivating a **comprehensive operative vision**, mastering **intricate technical maneuvers**, and embracing the **IFEM Endo philosophy**: precision, collaboration, surgical excellence, and compassion.

At the conclusion of the week, following the successful completion of the final examination, participants receive **the IFEM Endo Labs Certificate of Excellence**, which acknowledges their technical proficiency and their assimilation into the IFEM Endo operational methodology.

# MASTERCLASS IFEM ENDO ACADEMY

## The executive team

PROFESSOR

# MASTERCLASS IFEM ENDO ACADEMY

## Educational goals

Developing expertise in **complex endometriosis surgery**.

Master advanced techniques: **anastomoses, ureteral dissections, extensive resections**.

Fortify the **multidisciplinary decision-making** and **operational security**.

Cultivate **IFEM Endo certified technical and strategic proficiency**.

Engage in a culture of **excellence, collaboration, and ongoing enhancement**.

## The IFEM Endo Labs Certificate of Distinction

The **IFEM Endo Label** is an international recognition that:

- Certifies **expertise in advanced surgical techniques** acquired through IFEM Endo Masterclasses dedicated to the surgical management of complex endometriosis,
- Enhances surgeons' international credibility by distinguishing them as **members of the IFEM Endo community**, committed to a shared culture of surgical excellence, collaboration, and continuous training,
- Is formalized through the issuance of the **IFEM Endo Labs Certificate of Distinction**.

In practical terms, the **label includes**:

- A **patch** to be worn on the surgeon's gown
- A **diploma**
- An **IFEM Endo badge** to be used in communication materials
