**TRAINING PROGRAM
IFEM Endo Bordeaux - France**

Surgical intervention for
advanced endometriosis

FELLOWSHIP IFEM ENDO ACADEMY

Why join the IFEM Endo Academy?

IFEM Endo Academy offers you a **unique immersion** within an **internationally recognized institute**, exclusively dedicated to the **management of endometriosis**.

This fellowship will allow you to **strengthen your surgical skills** in a demanding and collaborative environment.

A PROGRAM STRUCTURED AROUND EXCELLENCE

ADVANCED MINIMALLY INVASIVE INTERVENTIONS

- Digestive endometriosis (laparoscopy & robot)
- Urinary, diaphragmatic, sacral plexus, sciatic nerve disorders
- Ovarian endometriomas: excision, plasma, sclerotherapy
- Hysterectomy, adenomyomectomy
- Complex multi-localized excisions

ACTIVE INVOLVEMENT IN THE TEAM

- Daily multidisciplinary staff
- Practical training (hands-on training)
- Exchanges with expert surgeons
- Patient database
- Introduction to clinical research
- Organization of a center of excellence

At the end of the course, you will receive a **certificate of attendance**. You will have access to **80 to 100 procedures per month**, more than half of which concern **complex cases of deep endometriosis**.

Terms & supervision

FORMATS AND DURATION ADAPTED TO YOUR OBJECTIVES

- **Duration:** from 1 to 6 weeks
- **Application & information:** academy@ifemendo.fr

SUPERVISION BY INTERNATIONAL REFERENCES

PROF. HORACE ROMAN

Co-founder

A world leader in endometriosis surgery, Prof. Horace Roman has devoted his career to the treatment of complex forms of the disease, particularly in the digestive and urinary tracts. He is renowned for his surgical know-how and his major role in **training international medical teams**. His expertise guides the IFEM Endo standards and protocols.

DR. BENJAMIN MERLOT

Co-founder

Dr. Benjamin Merlot, Director General of IFEM Endo, is a gynecologist with a specialization in endometriosis. He manages **the comprehensive care of patients**, encompassing diagnosis through post-operative follow-up, and supervises the **implementation of the IFEM Endo network**, ensuring the quality of care and the dissemination of medical expertise.

DR. THOMAS DENNIS

Senior instructor

Dr. Thomas Dennis is a gynecologic surgeon specializing in advanced minimally invasive techniques, including laparoscopic and robotic surgery. He is recognized for his expertise in the management of **complex pelvic disorders** and **deep endometriosis**, combining surgical precision, innovation, and a patient-centered approach.

FELLOWSHIP IFEM ENDO ACADEMY

*Each course is defined on a quote basis, to guarantee **content adapted to your needs and your level of experience.***

*At the end of the course, you will receive a **certificate of attendance.***

*You will have access to **20 procedures of complex cases of deep endometriosis** during your fellowship week.*

We offer to come from one week to six week fellowship.

The cost of this advanced training is €1,500 per week.

*To confirm your booking, a **deposit of 50%** will be requested at the time of booking.*

Upon completion of the fellowship, participants will receive **an official certificate their successful training.**

We look forward to welcoming you to IFEM Endo Bordeaux and sharing with you an experience in the expert surgery of endometriosis.

IFEM ENDO ACADEMY MASTERCLASS

Presentation of the Masterclass

PLACE

Tivoli Clinic,
Bordeaux,
France

DURATION

1 immersive
and
accredited
week

TEAM

Pr. Horace Roman
Dr. Benjamin Merlot
Dr. Thomas Dennis
Dr. Adrien Crestani

IFEM Endo Masterclass is a distinctive immersive training program focused on the **surgical management** of deep endometriosis.

Organized in Bordeaux, at the core of the reference center led by **Professor Horace Roman and Dr. Benjamin Merlot**, this week provides a comprehensive experience in direct engagement with the IFEM Endo operating teams.

Designed **for seasoned gynecological surgeons**, this Masterclass presents a blended and progressive format that includes:

- **daily engagement** in the operating room,
- specialized **technical seminars**,
- **simulation and imaging** sessions,
- **interactive courses** and analysis of actual cases.

Each participant engages in a rotation of practical activities, theoretical instruction, and multidisciplinary workshops, thereby ensuring **an optimal balance between knowledge acquisition and practical application**.

The objective is to guide each surgeon in cultivating a **comprehensive operative vision**, mastering **intricate technical maneuvers**, and embracing the **IFEM Endo philosophy**: precision, collaboration, surgical excellence, and compassion.

At the conclusion of the week, following the successful completion of the final examination, participants receive **the IFEM Endo Labs Certificate of Excellence**, which acknowledges their technical proficiency and their assimilation into the IFEM Endo operational methodology.

MASTERCLASS IFEM ENDO ACADEMY
