## **WORKSHOP**

Management of deep  
endometriosis infiltrating  
somatic nerves

# IFEM ENDO ACADEMY

## Presentation of the Workshop

### PLACE

IFEM Endo  
in Bordeaux  
or online

### DURATION

A week of  
on site or  
remote  
immersion

### TEAM

Prof. Horace Roman  
Dr. Benjamin Merlot

This highly specialized workshop is dedicated to **advanced nerve-oriented surgical decision-making in deep endometriosis**.

Developed within the IFEM Endo reference center in Bordeaux, it offers a structured educational experience that can be **followed immersive on-site or through a dedicated online module**, both focused on somatic nerve involvement.

Led by **Prof. Horace Roman and Dr. Benjamin Merlot**, the program addresses one of the most technically demanding areas of endometriosis surgery.

Designed for experienced gynecological surgeons, the workshop combines:

- **extensive observation** of complex nerve-related endometriosis surgeries
- **advanced lectures** dedicated to the management of somatic nerve infiltration
- **structured analysis** of surgical strategies, anatomy and intraoperative decision-making
- **exclusive access to the IFEM Endo online module** dedicated to nerve surgery in deep endometriosis.

Remote participants benefit from live streaming of all scheduled surgeries with interactive Q&A sessions, in addition to access to the dedicated online module.

On-site participants benefit from **direct immersion in the operating room** alongside the IFEM Endo surgical teams, while remote participants access the **same high-level educational content** through a structured digital format and live streaming surgeries.

This workshop reflects **the IFEM Endo philosophy**: precision, anatomical mastery, multidisciplinary collaboration, and surgical excellence.

# WORKSHOP IFEM ENDO ACADEMY

## Weekly agenda

*The specified times are subject to change.*

### MONDAY: **SURGERY WITH DR. BENJAMIN MERLOT**

#### **9:00 AM - 6:00 PM**

- Colorectal resection involving the rectosigmoid junction and parametrium
- Bladder resection associated with colorectal resection
- Extensive bladder endometriosis resection

### WEDNESDAY: **SURGERY WITH PROF. HORACE ROMAN**

#### **8:00 AM - 6:00 PM**

- Disc excision of rectal endometriosis and right sciatic nerve neurolysis
- Excision of deep endometriosis and left sciatic nerve neurolysis
- Excision of extensive deep endometriosis, rectal shaving and bilateral sciatic nerve neurolysis

### TUESDAY: **COURSES & WORKSHOP**

#### **8:30 AM - 12:00 AM**

- Advanced lecture: Management of deep endometriosis infiltrating somatic nerves

#### **2:00 PM - 6:00 PM**

- Surgical session with Dr. Merlot: Ureterolysis associated with colorectal resection

# WORKSHOP IFEM ENDO ACADEMY

## Weekly agenda

*The specified times are subject to change.*

### THURSDAY: **ROBOTIC SURGERY WITH PROF. HORACE ROMAN**

#### **8:00 AM – 6:00 PM**

- Robotic excision of deep endometriosis of the parametrium and sacral plexus and rectal disc excision
- Robotic excision of a large parametrial nodule involving obturator nerve, bladder and ureter

#### **7:00 PM**

- Dinner with the team of IFEM Endo Academy

### FRIDAY: **ADVANCED ROBOTIC SURGERY WITH PROF. ROMAN & IFEM ENDO ACADEMY CERTIFICATE OF EXCELLENCE**

#### **8:00 AM – 5:00 PM**

- Robotic rectal disc excision and excision of deep parametrial nodule extending to sacral plexus
- Robotic sciatic, pudendal nerve neurolysis, excision of bilateral parametrial nodules with bilateral hydronephrosis, rectal disc excision and ureteral reimplantation

**5:30 PM:** Official award ceremony for the IFEM Endo Academy and closing reception

**7:00 PM:** Conclusion

# WORKSHOP IFEM ENDO ACADEMY

## Educational goals

Develop advanced expertise in the surgical management of **deep endometriosis infiltrating somatic nerves**.

Master nerve-oriented surgical strategies, including **sciatic, obturator and pudendal nerve neurolysis**.

**Refine pelvic nerve anatomy understanding** to support safe, nerve-sparing and function-preserving surgery.

Embrace the **IFEM Endo philosophy** of precision, collaboration and surgical excellence.

Strengthen **complex intraoperative decision-making** in nerve-involved endometriosis.

## The executive team

PROFESSOR  
**HORACE ROMAN**

*International expert  
in the management  
of complex endometriosis*

DOCTOR  
**BENJAMIN MERLOT**

*Specialist in minimally  
invasive gynecological surgery  
and complex cases of endometriosis*

# WORKSHOP IFEM ENDO ACADEMY

Book your workshop session

The **IFEM Endo Workshop** is available in two formats, allowing participants to choose the learning experience that best fits their practice and availability.

**ON SITE**

ONE WEEK AT IFEM ENDO IN BORDEAUX  
CLINIQUE TIVOLI, FRANCE

From 2 to 6 February 2026

**€3,500 INCL. TAX**  
PER PERSON

**DISTANCE**

ONLINE WORKSHOP  
DISTANCE LEARNING

From 2 to 6 February 2026

**€1,200 INCL. TAX**  
PER PERSON

## On site workshop includes:

- Full access to the five-day on-site surgical immersion
- Live observation of highly complex endometriosis surgeries
- Advanced lectures and structured case-based discussions
- Direct interaction with Prof. Horace Roman, Dr. Benjamin Merlot and the IFEM Endo surgical teams
- Access to the dedicated IFEM Endo online module on nerve surgery in deep endometriosis
- Invitation to the IFEM Endo faculty dinner on Thursday evening

## Online workshop includes:

- Full access to the IFEM Endo online module dedicated to nerve surgery in deep endometriosis
- Live streaming of scheduled surgeries performed during the workshop
- Morning lectures delivered via live video conferencing
- Interactive Q&A sessions with the operating surgeons

***Each fellow is required to bring a laptop.***

*Meals, transportation, and accommodation are not included in the price.*
